Tuesday day.

VOLUME XIV

THE CLEARFIELD PROGRESS, CLEARFIELD, PA MONDAY EVENING MARCH 1, 1920

DRY STATES WILL FIGHT RHODE ISLAND RAILROADS RETURNED TO OWNERS TODAY

TWENTY ONE STATES IN THE DRY COMBINATION

REPRESENTED BY CHAS. E. HUGHES THEY
SERVE NOTICE THEY WILL OPPOSE
FIGHT OF VOLSTEAD LAW

LIQUOR INTERESTS MORE ACTIVE

WASHINGTON, March 1—Twenty-one prohibition states represented by Charles E. Hughes today announced in the Supreme Court their intention of fighting the efforts of Rhode Island to have the 18th Amendment and the Volstead law enforcing it become invalid.

WASHINGTON, March 1—Spurred on by what they believed a reaction against prohibition in all parts of the country liquor interests and all states that desire to remain wet today were preparing for concerted action against the 18th Amendment and the Volstead law enforcing it.

The main points of contention are:

Is the 18th Amendment valid?

Does it infringe on state's rights?

Can it be enforced in a state that did not ratify the amendment?

Is the Volstead law constitutional?

U. S. STEEL CORPORATION NEED NOT DISSOLVE: NOT TRUST, SAYS COURT

WASHINGTON, March 1—The United States Steel Corporation, the world's most gigantic industrial concern is not a trust within the meaning of the Sherman law, the Supreme Court held today. The court also held that the Corporation need not dissolve.

The decision was a defeat for the government which brought suit two years ago and in which some of the biggest figures in the financial and industrial life were named. New Jersey dismissed the government's suit and the Supreme Court affirmed this action. Among those named were Roosevelt, Harriman, J. P. Morgan, Sr. and Jr., Rockefeller, Sr. and Jr., Andrew Carnegie, Charles M. Schwab, George W. Perkins, James J. and Lewis W. Hill, H. C. Frick.

Some of the firms in the list of defendants were the following corporations: United States Steel Corporation, the Carnegie Steel Company, American Steel & Wire Company, of New Jersey, The National Tube Company, American Sheet & Tinplate Company, American Tinplate Company, American Bridge Company, Lake Superior Consolidated Iron Mines, Henry C. Frick Coke Company, Shelby Sheet & Tube Company, Union Steel Company, Clairton Steel Company, Tennessee Coal, Iron and Railroad Company and the Great Western Iron Company.

LARGE LIVE STOCK LOSS IN WRECK

UTICA, N. Y., March 1—Several hundred cattle and hogs were killed or injured today when 23 cars of the Swift Live Stock express, east bound on the New York Central were derailed between Utichboro and Oriskany. An agent of the Humane Society summoned to the scene said he was powerless to kill the injured animals because of the rules of the railroad company.

MEXICAN BOOZE SMUGGLERS KILLED

EL PASO, TEXAS, March 1—American government agents killed one Mexican and wounded another who attempted to smuggle liquor into the United States it was learned here today. The Mexican party withdrew leaving the dead and wounded men.

NEW HEAD OF STATE POLICE

HARRISBURG, March 1—today Major Lynn G. Adams, deputy superintendent of the department succeeding Col. John C. Groome, who resigned to enter other business.

LEAGUE MEETING CALLED FOR PARIS

PARIS, March 1—The Executive Council of the League of Nations has been summoned to meet in Paris, March 12, to organize a commission for investigation to conditions in Russia.

Good Roads Association Will Act On Bond Issue Tomorrow

State Highway Department Proposes To
Help Counties With Disposition
To Help Themselves

STATE DEPARTMENT MAN HERE

The meeting of the Clearfield bonds, with the exception of two. County Good Roads Association. In this connection it might not be scheduled for the Court House tomorrow out of place to say that note has already been taken of such action at row afternoon at 1:30 o'clock is a Harrisburg and Governor Sprout has asked Highway Commissioner Sadler from the election of officers for the coming year much business of importance will come before the meeting. The most important item of course will be the matter of the One Million Dollar County Road Bond issue. This proposition was passed upon favorably by the association last year and accepted by the County Commissioners, but on account of designing politicians attempting to take advantage of same to work out their personal spite or spleen the Commissioners, who were all candidates for re-election did not submit the matter to the voters of the county as it was expected to do.

By reason of the election of a new board of County Commissioners last year it will be necessary for the Good Roads association to again go on record as to the advisability of securing the consent of the voters of the county to a million dollar road bond proposition and a resolution asking the County Commissioners to submit the proposition and have it voted on at the May primaries will be offered at this meeting.

Forty some counties in the state have already taken this step enthusiastically by the action of the State Highway Department in proceeding with the construction of the through or primary routes in the different counties without requiring any county aid. Of these counties where a county road bond proposition was up to the voters all voted in favor of the

FORMER CLEARFIELD RESIDENT DIES AT DUBOIS

Mrs. Frank Toote, a former Clearfield resident, died at her home in DuBois at 8 o'clock last evening, after an illness of several weeks' duration, as the result of an attack of influenza, followed by pneumonia, aged 45 years.

The deceased was a daughter of the late James H. Dale, whose death occurred at DuBois on Tuesday last, and who was buried in Clearfield last Friday. She was a fine Christian woman, a life-long devout member of the Lutheran church, and was highly respected by all who had the pleasure of her acquaintance. She was a sister of Mrs. John E. Toote, of Clearfield. Funeral services will be held at her late home Tuesday evening, and the remains will be brought to Clearfield on the B. & P. train Wednesday morning for interment in the family plot in Hillcrest cemetery, immediately following the arrival of the train.

Besides her husband and one daughter, she is survived by three brothers and two sisters, viz: Albert J., and John W. Dale, of DuBois, Harry B. Dale, of Harrisburg; Mrs. John E. Toote, of Clearfield, and Mrs. Edgar Goodfellow, of Indiana.

LOCKOUT AT H. & C. OFFICE

A lockout occurred at the local offices of the H. & C. Telephone Company this morning, and as a result telephone service was interrupted for nearly half an hour, and three of the operators were forced to sit out on the stone steps for about the same time.

Early this morning a dead latch on the outer door of the telephone office decided to "get tight" and this little mechanical imperfection resulted in a tie-up of telephone service and some cold feet.

GAME PROTECTOR OFF ON HUNT FOR DEER KILLING DOG

Assistant State Game Protector W. J. Davis left this morning for Shawville to investigate a story concerning dogs running deer in that section. According to information received by Mr. Davis Saturday evening dogs got along Trout Run and ran two of them into Shawville, that is one of the deer got to the river at Shawville with one side of its neck badly torn by the fangs of the blood-thirsty hound, while the other deer was captured and killed before it made the village.

One of the dogs was shot and killed but the other got away. The latter dog was seen and recognized and the Game Protector went to Shawville this morning for the purpose of killing the dog and arranging to prosecute the owners of the two dogs.

Dogs are also reported killing deer in the Tyler and Penfield region, Game Protector W. C. Kelley being on the war path after them over in that section.

Dog owners are in duty bound to keep their dogs out of the woods at this time of year and the limit of the law will and should be given to all who negligently refuse or fail to do so. On account of the deep snow in the woods a dog will run a deer down inside of an hour's time and great havoc will be created among the deer on these mountains unless sportsmen generally get after every case of dogs running deer reported.

BOGGS TOWNSHIP RESIDENT DIES

William Wisor died at his home in Boggs township, near Bethlehem school house, last evening at 9:30 o'clock, aged 42 years, 3 months and 18 days.

The deceased, who was a son of the late John and Martha Hummel Wisor, was born near Salem, in Bradford township, November 11th, 1877. He had been a resident of Boggs township for a number of years. He was an honest, industrious man, enjoying the respect and esteem of his neighbors. Some two weeks ago he was taken down with influenza, and later bronchial pneumonia developed, caused his death.

He is survived by his widow, his mother and several brothers and sisters. The funeral will be held from his late home Wednesday afternoon at 1:30, Rev. Strayer, of the Woodland U. B. church, officiating. Interment in Spring Valley cemetery. F. B. Leavy, funeral director.

SUFFERED A BROKEN BACK

W. J. Moore, the plasterer, who recently fell from a scaffold, a distance of 12 feet, while at work at the County National Bank building broke his back in the fall, it was learned following the accident, and he is now a patient at the Clearfield hospital undergoing treatment for same.

Mr. and Mrs. Auland have returned from visiting with relatives in DuBois.

Mr. and Mrs. Roy Brown, of DuBois spent the week end at the home of the latter's parents Mr. and Mrs. George Thurston.

J. W. Oxley has returned from a business trip to New York and Philadelphia.

Great Occasions Reveal.

Great occasions do not make heroes or cowards; they simply unvell them. Silently and imperceptibly we grow weak and wax strong, we grow and wax weak; and at last some crisis shows what we have become.

A. F. OF L. THRU FIGHT AGAINST THE

RAIL DIRECTOR HINES REMAINS AT HIS
DESK TO OPEN CLAIMS OF
ROADS AGAINST GOVT.

WILSON'S LETTER TO THE

MIAMI, Fla., March 1—The American Federation of Labor will take no further action on the railroad bill which was signed by President Wilson on Monday, Samuel Gompers stated here today.

WASHINGTON, March 1—The nation's railroad men under private control again today after more than two years of government operation. By the provisions of the railroad bill signed by President Wilson last Saturday the railroads returned to their owners last night. Railroad administration, which is all parts of the United States at that time formally transferred to local executives management of the railroad system. Director Hines remained at his desk here today to handle hundreds of compensation claims from various railroad employees. Claims for damages and other grievances involving government control will be handled. This will be handled by May 1, he estimated.

Executives of the railroad unions who fought against the Cummins-Each bill remained in Washington today, their wage demands still unsatisfied. They were to meet today to decide what to do next. The President in a letter to Congress shortly after signing the bill pointed out that he was providing for the settlement of their wage demands through the establishment of a wage tribunal for employers and employees and the labor board. The President urged the railroad executives to prepare to submit their entire wage controversy to the tribunal.

President Wilson signed the Each-Cummins railroad bill Saturday evening at seven o'clock. Under the terms of the measure and the presidential proclamation of December 24, 1919, the roads will be restored to their owners for private operation at 12:01 a. m. today.

After the bill reached him at noon the President worked with quickness and decision. In addition to approving the measure he disposed of a number of the important pending problems connected with the return of the roads, including the wage demands of the railroad labor organizations. The White House announcements include:

A letter to the leaders of the fourteen railroad labor organizations, informing them that their wage demands would be submitted to the labor tribunal provided for in the new law.

An executive order, which provides for the continuation of the powers conferred upon Walker D. Hines, director general of the railroads, for the distribution and apportionment of coal.

An executive order naming J. W. Howe commissioner of the Tidewater Coal Exchange; Rembrandt Peale, of Philadelphia; F. M. Whitaker and J. E. Fisher, a board to administer the restrictions which are to remain on export coal.

A presidential proclamation conferring upon Mr. Hines the powers to carry out the government's obligations in connection with the restoration of the roads.

Permit System Retained
The President's action leaves no doubt regarding the position of the government, either in respect to settlement of railroad wage disputes or the administration of the ticklish bituminous coal situation in the eastern section of the United States.

Full protection of the public in the matter of coal distribution such as has been undertaken by the railroad administration since the bituminous coal strike will be maintained by the railroad administration's organization, the Central coal committee, and coal exporting will be carried on only under the permit system, which has

been in existence since the railroads put on during the strike last summer. The President's letter to the railroad brotherhoods is a declaration of "a specific tribunal to settle pending wage questions." It is a measure like Congress, that is, it is an argument that a "wage tribunal" which includes representatives of the public will be provided for. The President said that the railroad union leaders definitely promised that he will set up at once a tribunal provided in the railroad bill for the settlement of the pending wage disputes. The labor men and the railroad men both are to be heard. The President said the bill was a "bitterly by the railroad men, appropriate," and "pertinent" to the interests of the railroad employees as a class.

Mr. Wilson's letter to the President's letter to the railroad brotherhoods follows:

"Gentlemen: Your letter of the 14th instant and the subsequent arguments presented on your behalf with reference to the subject of pending claims for wage increases have had no effect on my consideration. The passage of the railroad bill by the House of Representatives on the 21st instant and by the Senate on the 24th instant has made it evident that I could not set aside your suggestions and at the same time determine whether the bill should become a law or not. It was inevitable that if the bill should become a law the negotiation and settlement of the wage matter could be placed in harmony therewith."

"The bill having become a law, the way is open for immediate action on the wage matter. A commission with the task of settling the 200 of the bill, which states that the commission will report as should, as suggested by the railroad representatives, the bill will constitute a bipartisan board, the purpose of attempting to settle the problem. In accordance with the assurance I gave last August and the

President Wilson's idea of a cabinet is—nine minds with but a single thought.

A dispatch from Russia says that twelve hours daily work is the bolshevik requirement there. We'd like to see the man who could get a bolshevik to work one hour a day in America.

The Lord helps them who help themselves. In like manner Highway Commissioner Sadler let it be known that the state "helps only those who help themselves." The inference is plain. Clearfield county must build roads on a large scale on her own hook if she is to get any great amount of consideration from the state.

TO THE REPUBLICAN ELECTORS OF PENNSYLVANIA:

I am directed by the Republican State Committee to announce that the Republicans of Pennsylvania, in accordance with the provisions of the Uniform Primary Act of 1913, will nominate at the Spring Primary Election, to be held Tuesday, May 18th, 1920, candidates for the following named offices:

One person for the office of United States Senator
Four persons for the office of Representatives in Congress at Large

One person for the office of State Treasurer

One person for the office of Auditor General

and will also elect twelve (12) delegates and twelve (12) alternate delegates at large to the Republican National Convention to be held in Chicago, Illinois, on June 8th, 1920.

By order of the Republican State Committee of Pennsylvania.
WILLIAM E. CROW, Chairman
W. HARRY RAKER, Secretary
H. H. SWEENEY, County Chairman.

IS IT AN OPPORTUNITY?

There has been a general support of the recommendation of the Progress that Clearfield business men look into the project of having the Nickel-Alloys Company locate one of their finishing or fabricating mills at Clearfield. The progress the mill has made since it took over the decrepit old Hyde works and turned it into one of the best feeders to the commercial activity of the town has created admiration for the company and its corps of hard working and optimistic officials.

Several callers at The Progress office have agreed that there should be a complete investigation of the desirability of the fabricating mill for Clearfield and it has been suggested that the business men of Clearfield call a meeting for the purpose of formulating some plan of meeting the officials of the Nickel-Alloys Company to learn more about their plans and whether anything they can do will result in the mill being located here.

We do not know whether the Chamber of Commerce is still organized or not but there is an association of the merchants who could take the lead in calling the meeting. The meeting, however, should be open to every citizen interested in the future of Clearfield because if the mill is a good thing for one it is good for all.

Will the Business Men's Association take the lead? This is the question a number of red-blooded Clearfielders are asking. What is the answer?

Life

Life is life's supreme interest. Without it nothing is possible; with it, all is possible. American life is the supreme interest of America. That life is full, progressive, rational, ambitious, imperfect. One of its glories may be called its imperfections. For there is a glory of the imperfect. —Charles F. Thwing.

See the Point?

Said the observing feller, "Newspeople cannot be guilty of prevarication as long as they get proof of everything they say." —Indianapolis Star.

Seeking Information.

Answer, three years old, was watching his cousin milking a cow. This was the first time he ever saw anybody milking a cow. He asked a while and said: "Are you milking the side that gives cream now?"

Biblical Petroleum.

Petroleum is first mentioned in the Bible in the account of the destruction of the tower of Babel. The partially evaporated fluid is there referred to as "pitch," which "they had for mortar."

OKLAHOMA IS 33D STATE TO RATIFY WOMAN SUFFRAGE

OKLAHOMA CITY, March 1.—The house at the special session of the Oklahoma legislature Saturday passed the resolution ratifying the woman suffrage federal amendment, without the emergency clause, by a vote of 77 to 4, with 24 not voting. Ratification will be completed when Governor J. B. A. Robertson signs the resolution, which he is expected to do.

Oklahoma is the thirty-third state to ratify, only three more being needed to make the amendment effective. Suffragists are depending on West Virginia, Washington and North Carolina to swing them to victory.

Correspondent Answered.
No, Robert, beer is not mentioned in the Bible; not lager beer, at any rate; but we read in Job: "I have seen the foolish taking root."—Boston Transcript.

There will be a festival at the Mt. Joy church Friday evening, March 5th. All are invited.

THE NEW YORK CENTRAL LINES have been demobilized. Once more they are in the hands of their owners. We are proud of our war record. Whatever we could do to help win the war was done gladly and with the zeal of patriotism which animated every good American. By reason of our superior equipment and splendid personnel, we were able to contribute to the country an efficient, never-failing transportation service which played an important part in bringing victory.

CHANGED conditions confront the railroads of the country, presenting for solution serious problems. Our rolling-stock is depleted, for, during the war, purchases could not keep pace with the demands of traffic. It will be impossible to restore overnight all the refinements of service which made this the best railroad in the country, or for that matter, in the world. But that will be done, as quickly as lies within human power. We are fully alive to our responsibilities to the public. We want the co-operation and good-will of the public and the public's representatives, the officials of the federal government and the various States which we serve, and intend to deserve them in fullest measure.

TO that end, we purpose to discuss frankly with the public our policies, our ideals, our service, our equipment, our personnel. We want to retain old friends and to make new ones on the basis of thorough knowledge and understanding. Thus we can serve the public as it should be served by a modern, efficient railroad.

A Service for the Bachelor

Few men are clever with the needle. If you are one of those who are needle-clumsy, and a bachelor to boot, our laundry service has virtues you will value.

If there are buttons missing on your shirts, pajamas or underwear, we replace them. If there are rents or tears we repair them. If there are holes in your hose we mend them.

But even more satisfying to the discriminating man is the spotless cleanliness that we give to everything; the particular care that we bestow upon silk shirts and finer items of men's wear; the perfect ironing we give to everything that needs it.

Not that we make a specialty of bachelors—these are but regular details of the service we extend to everyone. Whether yours be a bachelor's or a family bundle, we will give it this modern, considerate laundering. Telephone or mail us a card and our driver will call.

READ THE PROGRESS

C. C. A. A. News

"Just what is needed and it ought to be a go." That is what everybody says when approached on the proposition of supporting the Clearfield County Athletic Association.

Did you ever stop to think, Mr. Clearfielder, that it cannot be a go unless you make it go? Two or three fellows cannot do this thing. Even fifty men cannot make a success of it. It must be a community affair.

"Well, what do you want me to do?" asks Mr. Clearfielder. "I'll take a membership, of course." And out comes his check book and his five dollars is handed over to the solicitor.

His good wishes are desirable. The check is necessary. But more than these are necessary, his presence at the organization meeting to be held on Thursday, March 11th.

It is the desire of the promoters of the organization that every man who has contributed five dollars, be present at and take a part in the organization. The whole town is going to be combed to get the proper kind of officers for the association. It will take the votes of every good, loyal

lover of clean sports in Clearfield to put the proper men in office.

Tomorrow The Progress hopes to publish a list of the members of the organization up to this time. Memberships are coming in every day now and the list has grown to about fifty. It ought to be five hundred.

With five hundred members and the proper kind of officers there is nothing in the line of good wholesome amusement that will not be within the reach of Clearfield this summer and we will see less young men leaving for the cities where baseball and good times are to be had.

If you want to know more about the aims of the organization, call up The Progress office. We have gone over the proposition thoroughly and are able to recommend the proposition as it stands. We will not be responsible for its conduct after the permanent organization, but we urge now that every baseball enthusiast, every basket ball booster, every boxing fan and every lover of athletics take an interest in and help start it on the right path.

A. F. OF L. THRU WITH FIGHT AGAINST THE LAW

(Continued from Page One)

placed in substance in my letter of the 13th instant, I shall at once request the carriers and the employees to join in this action. I believe such a step will go far toward clarifying and maturing the subject for final disposition. In fact, the sort of board thus contemplated by Section 301 appears to be an appropriate subject for the committee of experts which I have heretofore suggested, and, indeed, such a board will be authorized to go further than such a committee could have gone.

"While it is true that the provisions of Section 307 of the railroad bill relating to the labor board will probably also come into operation to this wage matter, nevertheless, the bipartisan board can make a great deal of progress which will materially diminish the time to be consumed by the labor board; and while the bipartisan board is functioning, the appointment and organization of the labor board can be expedited.

Finds Provisions "Appropriate"

"I cannot share the apprehension of yourselves and your constituents as to the provisions of the law concerning the labor board. I believe those provisions are not only appropriate in the interest of the public, which after all is principally composed of workers and their families, but will be found to be particularly in the interest of railroad employees as a class.

"The argument that the public representatives on the labor board will be prejudiced against labor because drawn from classes of society antagonistic to labor can and ought to be overcome by selecting such public representatives as cannot be charged with any such prejudices. Nor do I steps."

anticipate that the public representatives will be against wage increases because they involve rate increases.

Not only must public representatives be selected who can be relied upon to do justice, but the bill itself provides that the labor board shall establish rates and wages and salaries which in the opinion of the board are 'just and reasonable,' and it is further provided that the entire labor board shall be guided by the very important standards which are provided in the law, those standards including the wages paid for similar kinds of work in other industries, the relation between the wages and the cost of living, the hazards of the employment, the training and skill required, the degree of responsibility, the character and irregularity of the employment and the correction of inequalities as the result of previous adjustments. Coupled with the direction to the labor board to take into consideration these important standards is the highly important direction to the commission to prescribe rates sufficient to admit of the payment of the reasonable operating expenses, including, of course, fair rates of wages.

"My hopes are that the putting into effect of these provisions with a carefully selected labor board whose public representatives can be relied upon to be fair to labor and to appreciate the point of view of labor that it is not longer to be considered as a mere commodity will mark the beginning of a new era of better understanding between the railroad management and their employees and will furnish additional safeguards to the just interests of railroad labor.

"I am sure that every agency which will be involved in the creation of the labor board and in the conduct of negotiations fully appreciate that the wage demands are entitled to the earliest possible consideration and disposition, and therefore I do not anticipate delay in the public appointment and organization of the labor board or in the other necessary steps."

A CONVINCING SHOWING OF NEW SPRING SUITS

First impressions are most influential, so that we have exercised care with this initial showing of Suits for Spring. They embrace the cleverest of thought and skill of handwork of real artists of production—whose creations always rise to the dignity of an authority.

We select—to feature the assortment embraced in the popular price range—

\$23.50 to \$95.00

including such fabrics as
TRICOTINE POIRET TWILLS
SERGES CHIC VELOURS
Of course Navy is the dominating tone—but there is also the touch of genuine novelty always charming, refreshing.

AT THE SAME TIME

We Wish You to Know About

New Coats for Spring

being shown in the season's most effective style modes and, as usual, priced the Bazaar way at

\$16.50 & \$24.50

The Sale of New Spring Hats Is Still Creating Interest

Can't wonder at it tho. The values are such that it has created a furore among the women who are careful of their expenses.

Prices range.

\$1.95 \$2.95 \$2.95

LADIES' BAZAAR

BROWN'S Values In Shoes

Real value does not mean a poor quality of merchandise at a low price, but good merchandise that can be offered to the public at prices below its regular market value.

A large system of exclusive shoe stores like Brown's can shop in the shoe centers and obtain "buys" where manufacturers have lines to close out.

Brown's are always making such "buys" and offer them to their customers through the medium of special sales and through the bargain departments maintained in all of their stores.

NEWS OF
OUR
NEIGHBORS

CURWENSVILLE

J. B. Garner, one of the men who furnishes Curwensville people with milk, was confined to his home all or last week, using his best efforts to quell rheumatic pains and flailing on an attack of the flu and grippe.

The family of George Bair is passing through an affliction which they hope will never be repeated. Five of them are or have been in bed with the influenza, two of the cases having developed into pneumonia. Dorothy and George Jr., thus leaving no one to care for them but the father and the eldest son.

Dr. Blair who passed through a severe attack of the influenza and has been unable to attend to his large practice for almost a month, is now able to be up and about the house. If no relapse follows he will probably be able to be out and attend office practice at least.

Sabbath was the Fourth Quarterly Communion service in the M. E. church. The conference year closed on March 14th. On Sunday, March 7th, the pastor will receive the probationers who have been recommended for full membership in the church. At the same time he will baptize any who have not been baptized.

The body of Mrs. Wm. H. Dill was brought to Curwensville on Saturday forenoon and interred in the family plot in Oak Hill cemetery alongside of that of her husband and son.

Ollie Smith one of the practical foremen employed by the Crescent Refractories company, is on duty again after a week's illness from influenza and grippe. He has charge of the clay mines of that company and is a thorough up-to-date man in his business.

Mrs. George W. Cole died at her home on north Filbert street Thursday, after a protracted illness. Sometime ago she suffered a slight stroke from which she never fully recovered and gradually failed in health from that time on. Her sister, Mrs. Fred Hopkins, of Pittsburgh, came here about a month ago to take care of her during her illness. Had she recovered her health sufficiently to make the trip, it was the intention of her brothers and sisters to take her out to Chicago to another sister. Mrs. Maggie Ritson, hoping that the change would be of great benefit to her, but "He who gave, He who taketh away" willed otherwise. Altho being unable to attend church regularly on account of her infirmities, she never wavered in that faith taught by her Master of a future heavenly home. Her end was quiet and peaceful. Deceased was the eldest daughter Andrew J. and Sarah Draucker (both deceased) and we infer that she was born in Curwensville, almost seventy years ago, making this her home all of her long life, with the exception of a few years. She was married to George W. Cole, a son of Jacob and Sarah Cole, who preceded her to the grave July 9th, 1877, death occurring from consumption in a Buffalo hospital, where he had been taken for treatment. No children were born of their union. She is survived by three brothers and two sisters: Jack L., of Renovo; Harry, of Philadelphia and Mrs. Fred Hopkins, of Pittsburgh; Edward H., of Lock Haven and Mrs. Maggie Ritson, of Chicago, Ill. Her funeral was held on Sunday afternoon, her body being interred in Oak Hill cemetery alongside that of her husband.

OBITUARY

JAMES HENRY DALE

James Henry Dale, son of John and Martha Dale, pioneer settlers of Clearfield county, was born near Curwensville, December 27th, 1835, and died at his home in DuBois, February 24th, 1920.

The greater portion of his life was spent within this county, although residing out of the state for a few years. He was for many years a prominent lumberman and while for a long time engaged in business as a manufacturer, yet he was as well one of the most skillful millwrights in his portion of the state, many plants beside his own being entrusted to his ability for the success which attended the undertaking. As a man among men he was the soul of honor and at all times his word was as good as his bond, and during his whole long life no one was the loser because of any promise he had given. He had the happy and unusual ability to handle men, and at the same time to command their confidence and respect. It was a common occurrence for him to spend hours in the evening conversing with men in his employment and the conversation was helpful and uplifting, entirely devoid of the coarse jest and profanity that too often characterizes such gatherings. In the course of his business career he was a resident of Grapian, McKean's Mills and a number of other places in this county, as well as at Almage, McKean county; Dogusahonda, Elk county; Homer City, Indiana county; Altoona and points in both the states of Maryland and West Virginia.

It was a pleasure for those of us who were acquainted with Mr. Dale to listen to him as he told the story of his early life and described the hardships and sacrifices the sturdy men and women of those days were compelled to make in order that they might procure the bare necessities of life. In fact, the qualities which made him a delightful companion and friend in his declining years, were fully magnetic in his mature life and in all the localities he lived there were many who regretted the fact that the completed operations necessitated the breaking of friendly ties. Many of the traits of character which made him a marked man were the result of his early training and the favorable environment of his youth.

His father was one of the early advocates of temperance in this county and the principles of his father were the foundations upon which he built his strong convictions against evil. It was a source of great joy to Mr. Dale that the hope of his soul was realized in the adoption of National Prohibition.

Mr. Dale was converted in youth and at the age of fourteen years united with the Methodist church and for a longer period than the majority of people live, he was a loyal and consistent follower of the Man of Galilee. It would be a source of abounding joy to the pastor if in every church the rank and file of its membership were as loyal to the organization, as generous in their support, and as intelligent in their cooperation as was the subject of this sketch. To him the religion of Jesus Christ was a life that was lived from day to day, and not merely a profession, and those who were in a position to judge him best, are the most to testify that with him the life was well-lived and he left this world the better for his existence. It was a genuine pleasure and source of inspiration to listen to his prayers, he literally talked with God, and his Father heard and conversed with him until again and again his face beamed with the sunlight of the Holy Spirit. As he came near to the time of his departure, he made arrangements for his burial and the care of his earthly affairs with as much composure as if he were planning to make a journey from which he expected to soon return. He talked of the eternal life and the fact that his trust was fixed in Christ with perfect assurance and often after we had prayed, he would put up his hands in blessing. The end was peaceful, the weary body rested

in slumber, breath grew faint and the light of life grew dim, but there was no pain, no struggle. As a child tired of play comes into the house as the evening shadows deepen and falls into a dreamless sleep, only to be strongly and better fitted for the demands of the morrow, so with him, and angels kissed him as he slept and his liberated soul caught the vision of the Eternal City.

Mr. Dale was twice married, first to Mary Jane Leach, who died in 1885, and in 1889 he was united in marriage to Catherine A. Etzweiler.

His home life was an ideal one in every respect and there was no vain regret, now that he has passed beyond the sound of earthly voices, but rather the memory of such life as men may, well cover.

Besides his wife he is survived by

Here's to teeth, appetite, digestion!

WRIGLEYS

to you with all its goodness perfectly preserved.

Sealed Tight—Kept Right!

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in

it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks, like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

Willard

YOU can be certain of two things about batteries—first, that if you take proper care of any good battery its life will be materially lengthened; and second, that if the battery you buy is a Still Better Willard with Threaded Rubber Insulation you not only have a good battery but a brand new one.

Gray Storage Battery Co.

14 So. Third St., Clearfield, Pa.

NO INKLING WHAT COAL COMMISSION IS GOING TO DO

Thousands of coal miners and many mine operators of the Central Pennsylvania district have their eyes turned toward Washington in anticipation of the announcement of the finding of the Federal Coal Commission, which is expected within the next few days.

No inkling of what the commission will decide upon has been advanced, although the miners and their representatives are confident that the verdict will provide a substantial increase in wages, while the operators are equally satisfied that the finding will provide means for more efficient operating. The arguments for the Central Pennsylvania coal field were presented to the commission this week, being the last district to be heard.

The claims advanced are outlined in the following dispatch from Washington:

Demands for the elimination of car pushing, compensation of \$1 per lineal yard as a minimum for room turning and removing top and bottom and a yardage rate of \$1.60 per yard for headings, airways, and cross cuts, were made by the miners of Central Pennsylvania. The demands of the miners were presented by John Brophy, and were:

1.—Granting all of the general demands made by the United Mine Workers.

2.—General introduction of merchandise hauling for mine cars.

3.—All rooms or pillars shall be paid for at a minimum rate of \$1 per yard, not to exceed 10 inches in thickness.

4.—Where bottom or top is taken up, the same price shall be paid.

5.—A yardage rate of \$1.60 per yard for headings, airways and cross cuts where no bottom or top is taken, and the same price for turning necks.

6.—Compensation of 10 cents per yard for the removal of raw slate and bone coal in places seven yards wide, and 1 cent per inch in excess of seven yards wide.

7.—Payment at the prevailing rate per hour for inside day labor for all lead work and not especially mentioned in agreement.

8.—A minimum difference of 10 cents per ton on all coal under 3½ feet in height. Where higher differentials exist, they are to be maintained.

9.—A tonnage rate at the pick mining rate as compensation for loading after the mechanical leader.

What Operators Ask.

John C. Forsyth, on behalf of the Association of Bituminous Coal Operators of Central Pennsylvania, presented requests of the Commission as follows:

1.—Elimination of the 5 per cent bonus in the existing agreement.

2.—Abolition of the "check-off" system of collecting dues of miner by the operators for the United Mine Workers.

3.—Change in the rules relating to rents to assure a return of 10 per cent on the value of the same.

4.—Adjustment of the prices for coal sold to miners for domestic purposes.

5.—Recommendation to Congress by the Commission for legislation requiring associations of laborers, making employment contracts to take action that will make them legally responsible for the fulfillment of the contracts.

6.—Installation of time clocks for the mines.

7.—Rules covering the installation of machinery at mines.

8.—Discharge at the option of the company of employees who fail to perform eight hours of actual work at the place of work, such discharge to be at the option of the foreman in charge.

9.—Suspension by foreman in charge of men absent from work without adequate excuse.

10.—Addition to Rule 4 for discharge of men for violations.

11.—Amendment to the penalty clause providing for the collection of fines by operators from local unions' officials.

Mr. Forsyth told the opposition of the miners of Central Pennsylvania to the introduction of machinery, and of strikes called by miners at the operations where employers sought to make use of improved mechanical devices.

"The general practice of the Central Pennsylvania Field has been that all labor-saving devices could be entered into mines without any question," said Mr. Forsyth.

Further Demands of Miners.

Mr. Brophy presented additional demands that the miners be furnished electric cap lamps free of charge, and that a differential of 40 cents be established between coke pullers on the 78-hour charge, and coke pullers on the 48-hour charge.

Read The Progress.

Additional Curwensville

'Squire John A. Dale was confined to his home several days this and last week by illness, being unable to attend either to his official duties or his lodges.

John Kelly was out in the forests last Saturday and captured another fox. Saturday seems to be a lucky day for Kelly in gathering in the scalp of Sir Reynard.

The industries of this place are still complaining that scarcity of cars is retarding the shipments from their plants.

The Keystone Cornet band received one day last week a complete set of new instruments. They are of the newest and latest pattern. This organization is now thoroughly organized with a full membership, and now that the boys have new and fit instruments, Curwensville people can expect to be treated to some excellent music within the next few weeks.

One who has kept a record informs us that during the month of February, 1919, five deaths occurred in the borough. During the month of February, 1920, nine deaths have taken place.

Last Thursday evening Curwensville lodge K. of P., initiated a class of eight into the mysteries of the first degree or degree of Page.

was Love for a snake.

Is there such a thing as a snake lover? Just ask the keeper of the reptile house who has been there for years, and he will tell you snakes are beautiful and kind. Of course, you can't expect too much intelligence, but he has one big-nosed snake who was the pet of an old Quaker for years, and the reverend gentleman read the Bible to him every night, which he seemed to enjoy hearing. This sport has been denied him lately, since the gentleman died.—Exchange.

Object Achieved.

One object aimed at in changing styles is to make the old photographs look ridiculous.—Toledo Blade.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

SOME say "good;" a few say "poor" and a large percentage say "well, we'd like to see it better, but probably you're doing the best you can under the circumstances."

What are the circumstances?

Just these!

To furnish good service we must have the right equipment and an efficient operating force. Both cost much more than they used to. The money we get from telephone rates.

And what are these rates?

Just what they were before the war!

They are not sufficient to operate and maintain the plant effectively and provide for depreciation and replacement.

They afford no margin for strengthening of the operating force. Our young women at the switchboards are intelligent and hardworking. We, at least, know that they're doing their very best.

To permit continued recognition of the good job they're doing, we must have adequate rates.

The service-user cannot ignore the obligations of the rate-payer!

The Bell Telephone Company of Pennsylvania

Only A Limited Number of Ford Cars

There are mighty good reasons why you should buy your Ford car now. But the biggest one is that there are only so many Ford cars—just a specific limited number—allotted to this territory. Those who buy their cars now will be wise. They will have them to use whenever they wish.

Don't put it off—next spring, even next month, is an uncertainty. We cannot take orders for spring delivery. Even now, we must have signed bona-fide orders before our monthly allotment is shipped us. So the only way for you to be sure of getting a Ford car, is to order it now. Get your name on an order. It is your protection.

Again we tell you, the allotment for this territory is limited and you must buy now while deliveries are possible. As ever, the demand for Ford cars is away in advance of production. So, it's first come, first served. Spring, summer, autumn and winter are all the same to the Ford car. It is a valuable servant every day of the year. Rain or shine, it is ready for your demands. Buy now and get prompt delivery. You won't have to store it. You can use it. Buy now while the buying is possible.

INSIST ON GENUINE FORD PARTS

NEW WORLD PROGRAM DEvised BY CHURCHES

By E. EARL TAYLOR

DR. E. EARL TAYLOR,
General Secretary Interchurch World Movement.

If Christ, on the day He was born, had started on a tour to preach in every village in India. He would still have \$6,000 more to visit.

We now believe we have found a way by which the leaders of the Protestant churches can sit around a common table and have the Christian program of the entire world laid before them. By means of the interchurch world movement we can see where the Methodists are, and where the Baptists are. We can see the general outlines of their forces, their present status in this great world struggle, and may also have some idea of the unoccupied places, and what may be done by all of us to enter these unoccupied parts of the world field which Christ sent us to occupy.

CHINA'S SWELLING MILLIONS

Ultimately the Chinese will unquestionably be the largest homogeneous human mass in the world. Interchurch surveys indicate that, assuming an increase of only 25 per cent, the population of China during the next thirty years will attain an increase almost equal to the total population of the United States in 1910.

While increasing at this rate, at home the Chinese are pouring down through Malaysia and the East Indian islands at the rate of 250,000 a year and give every evidence of becoming the dominant race in these lands. It is therefore no exaggeration to picture at the end of the present century a human mass numbering between eight and nine hundred millions spread over all the habitable regions from Siberia to the tropics, predominantly Chinese in blood, culture, racial outlook and feeling.

To Rid Plane of Moths.

When moths have got into a plane the best means of ejecting them is to make up a mixture of turpentine, benzoline and oil of lavender and squirt this inside the instrument by means of a scent spray or any small syringe. Use seven parts of benzoline to one of turpentine and add a few drops of the lavender—one drop to each ounce will be ample.

China's Grand Canal.

The Grand canal of China is the longest canal in the world. It reaches from Hangchow to Tientsin and covers a distance of 1,000 miles, crossing two of the world's largest rivers, the Huang and the Yangtze.

Gossip for Tonight's Tea Table

John Pentz, Esq. of DuBois, transacted legal business at the Court House today.

Perry Welsh, of Johnstown, is visiting his sister, Mrs. Nora Farrell, on Nichols street. It is the first meeting of brother and sister in fifteen years.

Miss Kathryn Bowes left this morning to spend some time in Washington and New York.

Miss Mary E. Colegrove, of Johnstown, is spending Sunday at the home of her parents.

Rebecca R. Colegrove celebrated her fourth birthday February 29th, although she was sixteen years old.

Miss Anna Kujawa, of Curwensville, who has been employed in Philadelphia the past year, has accepted a position with the State Centre Electric Company.

Edgar Poorman has returned from Williamsport, having been called there on account of the serious illness of his sister, Miss Hazel Poorman. Miss Poorman is recovering and will soon be able to follow her profession.

Mrs. A. J. List of Tyrone, spent the week end with Mrs. John List, who is a patient in the Clearfield hospital.

Dan Leffler spent Saturday in Altoona visiting with friends.

Miss Francis Kephart returned to her work in Philipsburg, after spending the week end with her parents here.

Guy Grazer returned to his home in Punxsutawney, after spending a few days with friends here.

Miss Beniah Shaw has returned to her home in Butler.

Miss Lucille Boyle, of DuBois, spent the week end with Miss Genevieve McGoe.

Glen Schnarrs of Marietta, spent the week end with his wife and son, at the home of his wife's mother, Mrs. Fred Carden on Cherry street.

Miss Elva Quigley, of Grampian, is visiting at the home of Martin Duckett.

Mrs. M. J. Kelly and Miss Jean Smith, of Curwensville, were shopping in town on Saturday.

Miss Elizabeth Black, of Punxsutawney, spent the week end with friends here.

John Graham, John and Al. Hess and William Brown, spent the week end at McPherson's Camp.

Miss Teresa Eisenhauer left today for Washington D. C., where she has accepted a government position.

Jack Dale, of DuBois, was a business caller in town today.

Francis Etzweiler is home from Fort McHenry, Baltimore, Md., to spend a few days with his mother, Mrs. Anna Etzweiler on Fourth street.

John List and children spent the week end with their wife and mother, who is a patient in the Clearfield Hospital.

VICK'S VAPORUB

YOUR BODYGUARD - 30¢ 60¢ 1.25

Gray, faded hair turned beautifully dark and lustrous almost overnight is a reality, if you'll take the trouble to mix sage tea and sulphur, but what is the use, you get a large bottle of the ready-to-use tonic, called "Wyeth's Sage and Sulphur Compound" at drug stores here. Millions of bottles of "Wyeth's" are sold annually, says a well-known druggist, because it darkens the hair so naturally and evenly that no one can tell it has happened.

You just dampen a sponge or soft brush with it Wyeth's Sage and Sulphur Compound and apply to your hair. It is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

THE CLEARFIELD PROGRESS, CLEARFIELD, PA MONDAY EVENING MARCH 1, 1920

DRY STATES WILL FIGHT RHODE ISLAND RAILROADS RETURNED TO OWNERS TODAY

TWENTY ONE STATES IN THE DRY COMBINATION

REPRESENTED BY CHAS. E. HUGHES THEY
SERVE NOTICE THEY WILL OPPOSE
FIGHT OF VOLSTEAD LAW

LIQUOR INTERESTS MORE ACTIVE

WASHINGTON, March 1—Twenty-one prohibition states represented by Charles E. Hughes today announced in the Supreme Court their intention of fighting the efforts of Rhode Island to have the 18th Amendment and the Volstead law enforcing it become invalid.

WASHINGTON, March 1—Spurred on by what they believed a reaction against prohibition in all parts of the country liquor interests and all states that desire to remain wet today were preparing for concerted action against the 18th Amendment and the Volstead law enforcing it.

The main points of contention are:

Is the 18th Amendment valid?

Does it infringe on state's rights?

Can it be enforced in a state that did not ratify the amendment?

Is the Volstead law constitutional?

U. S. STEEL CORPORATION NEED NOT DISSOLVE: NOT TRUST, SAYS COURT

WASHINGTON, March 1—The United States Steel Corporation, the world's most gigantic industrial concern is not a trust within the meaning of the Sherman law, the Supreme Court held today. The court also held that the Corporation need not dissolve.

The decision was a defeat for the government which brought suit two years ago and in which some of the biggest figures in the financial and industrial life were named. New Jersey dismissed the government's suit and the Supreme Court affirmed this action. Among those named were Roosevelt, Harriman, J. P. Morgan, Sr. and Jr., Rockefeller, Sr. and Jr., Andrew Carnegie, Charles M. Schwab, George W. Perkins, James J. and Lewis W. Hill, H. C. Frick.

Some of the firms in the list of defendants were the following corporations: United States Steel Corporation, the Carnegie Steel Company, American Steel & Wire Company, of New Jersey, The National Tube Company, American Sheet & Tinplate Company, American Tinplate Company, American Bridge Company, Lake Superior Consolidated Iron Mines, Henry C. Frick Coke Company, Shelby Sheet & Tube Company, Union Steel Company, Clairton Steel Company, Tennessee Coal, Iron and Railroad Company and the Great Western Iron Company.

LARGE LIVE STOCK LOSS IN WRECK

UTICA, N. Y., March 1—Several hundred cattle and hogs were killed or injured today when 23 cars of the Swift Live Stock express, east bound on the New York Central were derailed between Utichboro and Orikany. An agent of the Humane Society summoned to the scene said he was powerless to kill the injured animals because of the rules of the railroad company.

MEXICAN BOOZE SMUGGLERS KILLED

EL PASO, TEXAS, March 1—American government agents killed one Mexican and wounded another who attempted to smuggle liquor into the United States it was learned here today. The Mexican party withdrew leaving the dead and wounded men.

NEW HEAD OF STATE POLICE

HARRISBURG, March 1—today Major Lynn G. Adams, deputy superintendent of the department succeeding Col. John C. Groome, who resigned to enter other business.

LEAGUE MEETING CALLED FOR PARIS

PARIS, March 1—The Executive Council of the League of Nations has been summoned to meet in Paris, March 12, to organize a commission for investigation to conditions in Russia.

Good Roads Association Will Act On Bond Issue Tomorrow

State Highway Department Proposes To
Help Counties With Disposition
To Help Themselves

STATE DEPARTMENT MAN HERE

The meeting of the Clearfield bonds, with the exception of two. County Good Roads Association. In this connection it might not be scheduled for the Court House tomorrow out of place to say that note has already been taken of such action at row afternoon at 1:30 o'clock is a Harrisburg and Governor Sprout has asked Highway Commissioner Sadler to act accordingly and when the people of a county are not progressive enough to wish to help themselves in this matter of good roads to allow them to continue to wallow in their mud. It is needless to add that the plans of the Highway Department for this and subsequent years have been made up accordingly. Clearfield county has been pretty well taken care of by the State Highway Department under the present administration and today approximately eighteen miles of road are under contract. It is up to us to continue on the list of progressive counties and as the roads are so badly needed there should be no question about what Clearfield county voters will do on a road bond proposition.

By reason of the election of a new board of County Commissioners last year it will be necessary for the Good Roads association to again go on record as to the advisability of securing the consent of the voters of the county to a million dollar road bond proposition and a resolution asking the County Commissioners to submit the proposition and have it voted on at the May primaries will be offered at this meeting.

Forty some counties in the state have already taken this step enthusiastically by the action of the State Highway Department in proceeding with the construction of the through or primary routes in the different counties without requiring any county aid. Of these counties where a county road bond proposition was up to the voters all voted in favor of the

FORMER CLEARFIELD RESIDENT DIES AT DUBOIS

Mrs. Frank Toote, a former Clearfield resident, died at her home in Dubois at 8 o'clock last evening, after an illness of several weeks' duration, as the result of an attack of influenza, followed by pneumonia, aged 45 years.

The deceased was a daughter of the late James H. Dale, whose death occurred at Dubois on Tuesday last, and who was buried in Clearfield last Friday. She was a fine Christian woman, a life-long devout member of the Lutheran church, and was highly respected by all who had the pleasure of her acquaintance. She was a sister of Mrs. John E. Toote, of Clearfield. Funeral services will be held at her late home Tuesday evening, and the remains will be brought to Clearfield on the B. & P. train Wednesday morning for interment in the family plot in Hillcrest cemetery, immediately following the arrival of the train.

Besides her husband and one daughter, she is survived by three brothers and two sisters, viz: Albert, J., and John W. Dale, of Dubois, Harry B. Dale, of Harrisburg; Mrs. John E. Toote, of Clearfield, and Mrs. Edgar Goodfellow, of Indiana.

LOCKOUT AT H. & C. OFFICE

A lockout occurred at the local offices of the H. & C. Telephone Company this morning, and as a result telephone service was interrupted for nearly half an hour, and three of the operators were forced to sit out on the stone steps for about the same time.

Early this morning a dead latch on the outer door of the telephone office decided to "get tight" and this little mechanical imperfection resulted in a tie-up of telephone service and some cold feet.

GAME PROTECTOR OFF ON HUNT FOR DEER KILLING DOG

Assistant State Game Protector W. J. Davis left this morning for Shawville to investigate a story concerning dogs running deer in that section. According to information received by Mr. Davis Saturday evening dogs got along Trout Run and ran two of them into Shawville, that is one of the deer got to the river at Shawville with one side of its neck badly torn by the fangs of the blood-thirsty hound, while the other deer was captured and killed before it made the village.

One of the dogs was shot and killed but the other got away. The latter dog was seen and recognized and the Game Protector went to Shawville this morning for the purpose of killing the dog and arranging to prosecute the owners of the two dogs.

Dogs are also reported killing deer in the Tyler and Penfield region, Game Protector W. C. Kelley being on the war path after them over in that section.

Dog owners are in duty bound to keep their dogs out of the woods at this time of year and the limit of the law will and should be given to all who negligently refuse or fail to do so. On account of the deep snow in the woods a dog will run a deer down inside of an hour's time and great havoc will be created among the deer on these mountains unless sportsmen generally get after every case of dogs running deer reported.

BOGGS TOWNSHIP RESIDENT DIES

William Wisor died at his home in Boggs township, near Bethlehem school house, last evening at 9:30 o'clock, aged 42 years, 3 months and 18 days.

The deceased, who was a son of the late John and Martha Hummel Wisor, was born near Salem, in Bradford township, November 11th, 1877. He had been a resident of Boggs township for a number of years. He was an honest, industrious man, enjoying the respect and esteem of his neighbors. Some two weeks ago he was taken down with influenza, and later bronchial pneumonia developed, caused his death.

He is survived by his widow, his mother and several brothers and sisters. The funeral will be held from his late home Wednesday afternoon at 1:30, Rev. Strayer, of the Woodland U. B. church, officiating. Interment in Spring Valley cemetery. F. B. Leavy, funeral director.

SUFFERED A BROKEN BACK

W. J. Moore, the plasterer, who recently fell from a scaffold, a distance of 12 feet, while at work at the County National Bank building broke his back in the fall, it was learned following the accident, and he is now a patient at the Clearfield hospital undergoing treatment for same.

Mr. and Mrs. Auland have returned from visiting with relatives in Dubois.

Mr. and Mrs. Roy Brown, of Dubois spent the week end at the home of the latter's parents Mr. and Mrs. George Thurston.

J. W. Oxley has returned from a business trip to New York and Philadelphia.

Great Occasions Reveal.

Great occasions do not make heroes or cowards; they simply unvell them. Silently and imperceptibly we grow weak and wax strong, we grow and wax weak; and at last some crisis shows what we have become.

A. F. OF L. THRU FIGHT AGAINST THE

RAIL DIRECTOR HINES REMAINS AT HIS
DESK TO OPEN CLAIMS OF
ROADS AGAINST GOVT.

WILSON'S LETTER TO THE

MIAMI, Fla., March 1—The American Federation of Labor will take no further action on the railroad bill which was signed by President Wilson on Monday, Samuel Gompers stated here today.

WASHINGTON, March 1—The nation's railroad men under private control again today after more than two years of government operation. By the provisions of the railroad bill signed by President Wilson last Saturday the railroads returned to their owners last night. Railroad administration, which is a part of the United States at that time formally transferred to local executives management of the railroad system. Director Hines remained at his desk here today to handle hundreds of compensation claims from various railroad employees. Claims for damages and other grievances involving government control will be handled. This will be done by May 1, he estimated.

Executives of the railroad unions who fought against the Cummins-Each bill remained in Washington today, their wage demands still unsatisfied. They were to meet today to decide what to do next. The President in a letter to Congress shortly after signing the bill pointed out that he was providing for the settlement of their wage demands through the establishment of a wage tribunal for employers and employees and the labor board. The President urged the railroad executives to prepare to submit their entire wage controversy to the tribunal.

President Wilson signed the Each-Cummins railroad bill Saturday evening at seven o'clock. Under the terms of the measure and the presidential proclamation of December 24, 1919, the roads will be restored to their owners for private operation at 12:01 a. m. today.

After the bill reached him at noon the President worked with quickness and decision. In addition to approving the measure he disposed of a number of the important pending problems connected with the return of the roads, including the wage demands of the railroad labor organizations. The White House announcements include:

A letter to the leaders of the fourteen railroad labor organizations, informing them that their wage demands would be submitted to the labor tribunal provided for in the new law.

An executive order, which provides for the continuation of the powers conferred upon Walker D. Hines, director general of the railroads, for the distribution and apportionment of coal.

An executive order naming J. W. Howe commissioner of the Tidewater Coal Exchange; Rembrandt Peale, of Philadelphia; F. M. Whitaker and J. E. Fisher, a board to administer the restrictions which are to remain on export coal.

A presidential proclamation conferring upon Mr. Hines the powers to carry out the government's obligations in connection with the restoration of the roads.

Permit System Retained
The President's action leaves no doubt regarding the position of the government, either in respect to settlement of railroad wage disputes or the administration of the ticklish bituminous coal situation in the eastern section of the United States.

Full protection of the public in the matter of coal distribution such as has been undertaken by the railroad administration since the bituminous coal strike will be maintained by the railroad administration's organization, the Central coal committee, and coal exporting will be carried on only under the permit system, which has

been in existence since the embargo put on during the strike last summer. The President's letter to the railroad brotherhoods is a declaration of the railroad workers' right to a specific tribunal to settle their wage questions. It is a declaration like Congress, made on the basis of the argument that a "majority" of the public will be protected. The President's letter to the railroad union leaders definitely promises that he will set up at once a tribunal to provide for the settlement of the wage dispute. The labor men and the railroad men are both satisfied with the President's action. The President's letter to the railroad brotherhoods is a declaration of the railroad workers' right to a specific tribunal to settle their wage questions. It is a declaration like Congress, made on the basis of the argument that a "majority" of the public will be protected. The President's letter to the railroad union leaders definitely promises that he will set up at once a tribunal to provide for the settlement of the wage dispute. The labor men and the railroad men are both satisfied with the President's action. The President's letter to the railroad brotherhoods is a declaration of the railroad workers' right to a specific tribunal to settle their wage questions. It is a declaration like Congress, made on the basis of the argument that a "majority" of the public will be protected. The President's letter to the railroad union leaders definitely promises that he will set up at once a tribunal to provide for the settlement of the wage dispute. The labor men and the railroad men are both satisfied with the President's action.

Mr. Wilson's letter to the railroad brotherhoods follows:

"Gentlemen: Your letter of the 14th instant and the subsequent arguments presented on your behalf with reference to the subject of pending claims for wage increases have had no effect on my consideration. The passage of the railroad bill by the House of Representatives on the 21st instant and by the Senate on the 24th instant has made it evident that I could not set aside your suggestions and at the same time determine whether the bill should become a law or not. It was inevitable that if the bill should become a law the negotiation and settlement of the wage matter ought to proceed in harmony therewith."

"The bill having now become a law, the way is open for immediate action on the wage matter. A conference with the labor and the railroad executives on the 21st instant and by the Senate on the 24th instant has made it evident that I could not set aside your suggestions and at the same time determine whether the bill should become a law or not. It was inevitable that if the bill should become a law the negotiation and settlement of the wage matter ought to proceed in harmony therewith."

President Wilson's idea of a cabinet is—nine minds with but a single thought.

A dispatch from Russia says that twelve hours daily work is the bolshevist requirement there. We'd like to see the man who could get a bolshevist to work one hour a day in America.

The Lord helps them who help themselves. In like manner Highway Commissioner Sadler let it be known that the state "helps only those who help themselves." The inference is plain. Clearfield county must build roads on a large scale on her own hook if she is to get any great amount of consideration from the state.

TO THE REPUBLICAN ELECTORS OF PENNSYLVANIA:

I am directed by the Republican State Committee to announce that the Republicans of Pennsylvania, in accordance with the provisions of the Uniform Primary Act of 1913, will nominate at the Spring Primary Election, to be held Tuesday, May 18th, 1920, candidates for the following named offices:

One person for the office of United States Senator
Four persons for the office of Representatives in Congress at Large

One person for the office of State Treasurer
One person for the office of Auditor General
and will also elect twelve (12) delegates and twelve (12) alternate delegates at large to the Republican National Convention to be held in Chicago, Illinois, on June 8th, 1920.

By order of the Republican State Committee of Pennsylvania.
WILLIAM E. CROW, Chairman
W. HARRY RAKER, Secretary
H. H. SWEENEY, County Chairman.

IS IT AN OPPORTUNITY?

There has been a general support of the recommendation of the Progress that Clearfield business men look into the project of having the Nickel-Alloys Company locate one of their finishing or fabricating mills at Clearfield. The progress the mill has made since it took over the decrepit old Hyde works and turned it into one of the best feeders to the commercial activity of the town has created admiration for the company and its corps of hard working and optimistic officials.

Several callers at The Progress office have agreed that there should be a complete investigation of the desirability of the fabricating mill for Clearfield and it has been suggested that the business men of Clearfield call a meeting for the purpose of formulating some plan of meeting the officials of the Nickel-Alloys Company to learn more about their plans and whether anything they can do will result in the mill being located here.

We do not know whether the Chamber of Commerce is still organized or not but there is an association of the merchants who could take the lead in calling the meeting. The meeting, however, should be open to every citizen interested in the future of Clearfield because if the mill is a good thing for one it is good for all.

Will the Business Men's Association take the lead? This is the question a number of red-blooded Clearfielders are asking. What is the answer?

Life

Life is life's supreme interest. Without it nothing is possible; with it, all American life is the supreme interest of America. That life is full, progressive, intense, ambitious, imperfect. One of its glories may be called its imperfections. For there is a glory of the imperfect. —Charles F. Thwing.

See the Point?

Said the observing feller, "Newspeople cannot be guilty of prevarication as long as they get proof of everything they say." —Indianapolis Star.

Seeking Information.

Answer, three years old, was watching his cousin milking a cow. This was the first time he ever saw anybody milking a cow. He asked a while and said: "Are you milking the side that gives cream now?"

Biblical Petroleum.

Petroleum is first mentioned in the Bible in the account of the destruction of the tower of Babel. The partially evaporated fluid is there referred to as "pitch," which "they had for mortar."

OKLAHOMA IS 33D STATE TO RATIFY WOMAN SUFFRAGE

OKLAHOMA CITY, March 1.—The house at the special session of the Oklahoma legislature Saturday passed the resolution ratifying the woman suffrage federal amendment, without the emergency clause, by a vote of 77 to 4, with 24 not voting. Ratification will be completed when Governor J. B. A. Robertson signs the resolution, which he is expected to do.

Oklahoma is the thirty-third state to ratify, only three more being needed to make the amendment effective. Suffragists are depending on West Virginia, Washington and North Carolina to swing them to victory.

Correspondent Answered.
No, Robert, beer is not mentioned in the Bible; not lager beer, at any rate; but we read in Job: "I have seen the foolish taking root."—Boston Transcript.

There will be a festival at the Mt. Joy church Friday evening, March 5th. All are invited.

THE NEW YORK CENTRAL LINES have been demobilized. Once more they are in the hands of their owners. We are proud of our war record. Whatever we could do to help win the war was done gladly and with the zeal of patriotism which animated every good American. By reason of our superior equipment and splendid personnel, we were able to contribute to the country an efficient, never-failing transportation service which played an important part in bringing victory.

CHANGED conditions confront the railroads of the country, presenting for solution serious problems. Our rolling-stock is depleted, for, during the war, purchases could not keep pace with the demands of traffic. It will be impossible to restore overnight all the refinements of service which made this the best railroad in the country, or for that matter, in the world. But that will be done, as quickly as lies within human power. We are fully alive to our responsibilities to the public. We want the co-operation and good-will of the public and the public's representatives, the officials of the federal government and the various States which we serve, and intend to deserve them in fullest measure.

TO that end, we purpose to discuss frankly with the public our policies, our ideals, our service, our equipment, our personnel. We want to retain old friends and to make new ones on the basis of thorough knowledge and understanding. Thus we can serve the public as it should be served by a modern, efficient railroad.

A Service for the Bachelor

Few men are clever with the needle. If you are one of those who are needle-clumsy, and a bachelor to boot, our laundry service has virtues you will value.

If there are buttons missing on your shirts, pajamas or underwear, we replace them. If there are rents or tears we repair them. If there are holes in your hose we mend them.

But even more satisfying to the discriminating man is the spotless cleanliness that we give to everything; the particular care that we bestow upon silk shirts and finer items of men's wear; the perfect ironing we give to everything that needs it.

Not that we make a specialty of bachelors—these are but regular details of the service we extend to everyone. Whether yours be a bachelor's or a family bundle, we will give it this modern, considerate laundering. Telephone or mail us a card and our driver will call.

READ THE PROGRESS

C. C. A. A. News

"Just what is needed and it ought to be a go." That is what everybody says when approached on the proposition of supporting the Clearfield County Athletic Association.

Did you ever stop to think, Mr. Clearfielder, that it cannot be a go unless you make it go? Two or three fellows cannot do this thing. Even fifty men cannot make a success of it. It must be a community affair.

"Well, what do you want me to do?" asks Mr. Clearfielder. "I'll take a membership, of course." And out comes his check book and his five dollars is handed over to the solicitor.

His good wishes are desirable. The check is necessary. But more than these are necessary, his presence at the organization meeting to be held on Thursday, March 11th.

It is the desire of the promoters of the organization that every man who has contributed five dollars, be present at and take a part in the organization. The whole town is going to be combed to get the proper kind of officers for the association. It will take the votes of every good, loyal

lover of clean sports in Clearfield to put the proper men in office.

Tomorrow The Progress hopes to publish a list of the members of the organization up to this time. Memberships are coming in every day now and the list has grown to about fifty. It ought to be five hundred.

With five hundred members and the proper kind of officers there is nothing in the line of good wholesome amusement that will not be within the reach of Clearfield this summer and we will see less young men leaving for the cities where baseball and good times are to be had.

If you want to know more about the aims of the organization, call up The Progress office. We have gone over the proposition thoroughly and are able to recommend the proposition as it stands. We will not be responsible for its conduct after the permanent organization, but we urge now that every baseball enthusiast, every basket ball booster, every boxing fan and every lover of athletics take an interest in and help start it on the right path.

A. F. OF L. THRU WITH FIGHT AGAINST THE LAW

(Continued from Page One)

placed in substance in my letter of the 13th instant, I shall at once request the carriers and the employees to join in this action. I believe such a step will go far toward clarifying and maturing the subject for final disposition. In fact, the sort of board thus contemplated by Section 301 appears to be an appropriate subject for the committee of experts which I have heretofore suggested, and, indeed, such a board will be authorized to go further than such a committee could have gone.

"While it is true that the provisions of Section 307 of the railroad bill relating to the labor board will probably also come into operation to this wage matter, nevertheless, the bipartisan board can make a great deal of progress which will materially diminish the time to be consumed by the labor board; and while the bipartisan board is functioning, the appointment and organization of the labor board can be expedited.

Finds Provisions "Appropriate"

"I cannot share the apprehension of yourselves and your constituents as to the provisions of the law concerning the labor board. I believe those provisions are not only appropriate in the interest of the public, which after all is principally composed of workers and their families, but will be found to be particularly in the interest of railroad employees as a class.

"The argument that the public representatives on the labor board will be prejudiced against labor because drawn from classes of society antagonistic to labor can and ought to be overcome by selecting such public representatives as cannot be charged with any such prejudices. Nor do I steps."

anticipate that the public representatives will be against wage increases because they involve rate increases.

Not only must public representatives be selected who can be relied upon to do justice, but the bill itself provides that the labor board shall establish rates and wages and salaries which in the opinion of the board are 'just and reasonable,' and it is further provided that the entire labor board shall be guided by the very important standards which are provided in the law, those standards including the wages paid for similar kinds of work in other industries, the relation between the wages and the cost of living, the hazards of the employment, the training and skill required, the degree of responsibility, the character and irregularity of the employment and the correction of inequalities as the result of previous adjustments. Coupled with the direction to the labor board to take into consideration these important standards is the highly important direction to the commission to prescribe rates sufficient to admit of the payment of the reasonable operating expenses, including, of course, fair rates of wages.

"My hopes are that the putting into effect of these provisions with a carefully selected labor board whose public representatives can be relied upon to be fair to labor and to appreciate the point of view of labor that it is not longer to be considered as a mere commodity will mark the beginning of a new era of better understanding between the railroad management and their employees and will furnish additional safeguards to the just interests of railroad labor.

"I am sure that every agency which will be involved in the creation of the labor board and in the conduct of negotiations fully appreciate that the wage demands are entitled to the earliest possible consideration and disposition, and therefore I do not anticipate delay in the appointment and organization of the labor board or in the other necessary steps."

A CONVINCING SHOWING OF NEW SPRING SUITS

First impressions are most influential, so that we have exercised care with this initial showing of Suits for Spring. They embrace the cleverest of thought and skill of handwork of real artists of production—whose creations always rise to the dignity of an authority.

We select—to feature the assortment embraced in the popular price range—

\$23.50 to \$95.00

including such fabrics as

NEWS OF
OUR
NEIGHBORS

CURWENSVILLE

J. B. Garner, one of the men who furnishes Curwensville people with milk, was confined to his home all or last week, using his best efforts to quell rheumatic pains and flailing on an attack of the flu and grippe.

The family of George Bair is passing through an affliction which they hope will never be repeated. Five of them are or have been in bed with the influenza, two of the cases having developed into pneumonia. Dorothy and George Jr., this leaving no one to care for them but the father and the eldest son.

Dr. Blair who passed through a severe attack of the influenza and has been unable to attend to his large practice for almost a month, is now able to be up and about the house. If no relapse follows he will probably be able to be out and attend office practice at least.

Sabbath was the Fourth Quarterly Communion service in the M. E. church. The conference year closed on March 14th. On Sunday, March 7th, the pastor will receive the probationers who have been recommended for full membership in the church. At the same time he will baptize any who have not been baptized.

The body of Mrs. Wm. H. Dill was brought to Curwensville on Saturday forenoon and interred in the family plot in Oak Hill cemetery alongside of that of her husband and son.

Ollie Smith one of the practical foremen employed by the Crescent Refractories company, is on duty again after a week's illness from influenza and grippe. He has charge of the clay mines of that company and is a thorough up-to-date man in his business.

Mrs. George W. Cole died at her home on north Filbert street Thursday, after a protracted illness. Sometime ago she suffered a slight stroke from which she never fully recovered and gradually failed in health from that time on. Her sister, Mrs. Fred Hopkins, of Pittsburgh, came here about a month ago to take care of her during her illness. Had she recovered her health sufficiently to make the trip, it was the intention of her brothers and sisters to take her out to Chicago to another sister. Mrs. Maggie Ritson, hoping that the change would be of great benefit to her, but "He who gave, He who taketh away" willed otherwise. Altho being unable to attend church regularly on account of her infirmities, she never wavered in that faith taught by her Master of a future heavenly home. Her end was quiet and peaceful. Deceased was the eldest daughter Andrew J. and Sarah Draucker (both deceased) and we infer that she was born in Curwensville, almost seventy years ago, making this her home all of her long life, with the exception of a few years. She was married to George W. Cole, a son of Jacob and Sarah Cole, who preceded her to the grave July 9th, 1877, death occurring from consumption in a Buffalo hospital, where he had been taken for treatment. No children were born of their union. She is survived by three brothers and two sisters: Jack L., of Renovo; Harry, of Philadelphia and Mrs. Fred Hopkins, of Pittsburgh; Edward H., of Lock Haven and Mrs. Maggie Ritson, of Chicago, Ill. Her funeral was held on Sunday afternoon, her body being interred in Oak Hill cemetery alongside that of her husband.

OBITUARY

JAMES HENRY DALE

James Henry Dale, son of John and Martha Dale, pioneer settlers of Clearfield county, was born near Curwensville, December 27th, 1835, and died at his home in DuBois, February 24th, 1920.

The greater portion of his life was spent within this county, although residing out of the state for a few years. He was for many years a prominent lumberman and while for a long time engaged in business as a manufacturer, yet he was as well one of the most skillful millwrights in his portion of the state, many plants beside his own being entrusted to his ability for the success which attended the undertaking. As a man among men he was the soul of honor and at all times his word was as good as his bond, and during his whole long life no one was the loser because of any promise he had given. He had the happy and unusual ability to handle men, and at the same time to command their confidence and respect. It was a common occurrence for him to spend hours in the evening conversing with men in his employment and the conversation was helpful and uplifting, entirely devoid of the coarse jest and profanity that too often characterizes such gatherings. In the course of his business career he was a resident of Grapeland, McKean county; a number of other places in this county, as well as at Albion, McKean county; Daguerre, Elk county; Homer City, Indiana county; Altoona and points in both the states of Maryland and West Virginia.

It was a pleasure for those of us who were acquainted with Mr. Dale to listen to him as he told the story of his early life and described the hardships and sacrifices the sturdy men and women of those days were compelled to make in order that they might procure the bare necessities of life. In fact, the qualities which made him a delightful companion and friend in his declining years, were fully magnetic in his mature life and in all the localities he lived there were many who regretted the fact that the completed operations necessitated the breaking of friendly ties. Many of the traits of character which made him a marked man were the result of his early training and the favorable environment of his youth.

His father was one of the early advocates of temperance in this county and the principles of his father were the foundations upon which he built his strong convictions against evil. It was a source of great joy to Mr. Dale that the hope of his soul was realized in the adoption of National Prohibition.

Mr. Dale was converted in youth and at the age of fourteen years united with the Methodist church and for a longer period than the majority of people live, he was a loyal and consistent follower of the Man of Galilee. It would be a source of abounding joy to the pastor if in every church the rank and file of its membership were as loyal to the organization, as generous in their support, and as intelligent in their cooperation as was the subject of this sketch. To him the religion of Jesus Christ was a life that was lived from day to day, and not merely a profession, and those who were in a position to judge him best, are the most to testify that with him the life was well-lived and he left this world the better for his existence. It was a genuine pleasure and source of inspiration to listen to his prayers, he literally talked with God, and his Father heard and conversed with him until again and again his face beamed with the sunlight of the Holy Spirit. As he came near to the time of his departure, he made arrangements for his burial and the care of his earthly affairs with as much composure as if he were planning to make a journey from which he expected to soon return. He talked of the eternal life and the fact that his trust was fixed in Christ with perfect assurance and often after we had prayed, he would put up his hands in blessing. The end was peaceful, the weary body rested

in slumber, breath grew faint and the light of life grew dim, but there was no pain, no struggle. As a child tired of play comes into the house as the evening shadows deepen and falls into a dreamless sleep, only to be strongly and better fitted for the demands of the morrow, so with him, and angels kissed him as he slept and his liberated soul caught the vision of the Eternal City.

Mr. Dale was twice married, first to Mary Jane Leach, who died in 1885, and in 1889 he was united in marriage to Catherine A. Etzweiler. His home life was an ideal one in every respect and there was no vain regret, now that he has passed beyond the sound of earthly voices, but rather the memory of such life as men may, well cover.

WRIGLEYS

to you with all its goodness perfectly preserved.

Sealed Tight—Kept Right!

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in

it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks, like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

Willard

YOU can be certain of two things about batteries—first, that if you take proper care of any good battery its life will be materially lengthened; and second, that if the battery you buy is a Still Better Willard with Threaded Rubber Insulation you not only have a good battery but a brand new one.

14 So. Third St., Clearfield, Pa.

NO INKLING WHAT COAL COMMISSION IS GOING TO DO

Thousands of coal miners and many mine operators of the Central Pennsylvania district have their eyes turned toward Washington in anticipation of the announcement of the finding of the Federal Coal Commission, which is expected within the next few days.

No inkling of what the commission will decide upon has been advanced, although the miners and their representatives are confident that the verdict will provide a substantial increase in wages, while the operators are equally satisfied that the finding will provide means for more efficient operating. The arguments for the Central Pennsylvania coal field were presented to the commission this week, being the last district to be heard.

The claims advanced are outlined in the following dispatch from Washington:

Demands for the elimination of car pushing, compensation of \$1 per lineal yard as a minimum for room turning and removing top and bottom and a yardage rule of \$1.60 per yard for headings, airways, and cross cuts, were made by the miners of Central Pennsylvania. The demands of the miners were presented by John Brophy, and were:

- 1.—Granting all of the general demands made by the United Mine Workers.
- 2.—General introduction of merchandise hauling for mine cars.
- 3.—All rooms or pillars shall be paid for at a minimum rate of \$1 per yard, not to exceed 10 inches in thickness.
- 4.—Where bottom or top is taken up, the same price shall be paid.
- 5.—A yardage rate of \$1.60 per yard for headings, airways and cross cuts where no bottom or top is taken, and the same price for turning necks.
- 6.—Compensation of 10 cents per yard for the removal of raw slate and bone coal in places seven yards wide, and 1 cent per inch in excess of seven yards wide.
- 7.—Payment at the prevailing rate per hour for inside day labor for all lead work and not especially mentioned in agreement.
- 8.—A minimum difference of 10 cents per ton on all coal under 3½ feet in height. Where higher differentials exist, they are to be maintained.
- 9.—A tonnage rate at the pick mining rate as compensation for loading after the mechanical leader.

What Operators Ask. John C. Forsyth, on behalf of the Association of Bituminous Coal Operators of Central Pennsylvania, presented requests of the Commission as follows:

- 1.—Elimination of the 5 per cent bonus in the existing agreement.
- 2.—Abolition of the "check-off" system of collecting dues of miner by the operators for the United Mine Workers.
- 3.—Change in the rules relating to rents to assure a return of 10 per cent on the value of the same.
- 4.—Adjustment of the prices for coal sold to miners for domestic purposes.
- 5.—Recommendation to Congress by the Commission for legislation requiring associations of laborers, making employment contracts to take action that will make them legally responsible for the fulfillment of the contracts.
- 6.—Installation of time clocks for the mines.
- 7.—Rules covering the installation of machinery at mines.
- 8.—Discharge at the option of the company of employees who fail to perform eight hours of actual work at the place of work, such discharge to be at the option of the foreman in charge.
- 9.—Suspension by foreman in charge of men absent from work without adequate excuse.
- 10.—Addition to Rule 4 for discharge of men for violations.
- 11.—Amendment to the penalty clause providing for the collection of fines by operators from local unions' officials.
- 12.—Mr. Forsyth told the opposition of the miners of Central Pennsylvania to the introduction of machinery, and of strikes called by miners at the operations where employers sought to make use of improved mechanical devices.

"The general practice of the Central Pennsylvania Field has been that all labor-saving devices could be entered into mines without any question," said Mr. Forsyth.

Further Demands of Miners. Mr. Brophy presented additional demands that the miners be furnished electric cap lamps free of charge, and that a differential of 40 cents be established between coke pullers on the 78-hour charge, and coke pullers on the 48-hour charge.

Read The Progress.

Additional Curwensville

'Squire John A. Dale was confined to his home several days this and last week by illness, being unable to attend either to his official duties or his lodges.

John Kelly was out in the forests last Saturday and captured another fox. Saturday seems to be a lucky day for Kelly in gathering in the scalp of Sir Reynard.

The industries of this place are still complaining that scarcity of cars is retarding the shipments from their plants.

The Keystone Cornet band received one day last week a complete set of new instruments. They are of the newest and latest pattern. This organization is now thoroughly organized with a full membership, and now that the boys have new and fit instruments, Curwensville people can expect to be treated to some excellent music within the next few weeks.

One who has kept a record informs us that during the month of February, 1919, five deaths occurred in the borough. During the month of February, 1920, nine deaths have taken place.

Last Thursday evening Curwensville lodge K. of P., initiated a class of eight into the mysteries of the first degree or degree of Page.

- Monday, 29th.—How to Make a Home Garden Pay.

Was Love for a Snake. Is there such a thing as a snake lover? Just ask the keeper of the reptile house who has been there for years, and he will tell you snakes are beautiful and kind. Of course, you can't expect too much intelligence, but he has one big-nosed snake who was the pet of an old Quaker for years, and the reverend gentleman read the Bible to him every night, which he seemed to enjoy hearing. This sport has been denied him lately, since the gentleman died.—Exchange.

Object Achieved. One object aimed at in changing styles is to make the old photographs look ridiculous.—Toledo Blade.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

What about our Service?

SOME say "good;" a few say "poor" and a large percentage say "well, we'd like to see it better, but probably you're doing the best you can under the circumstances."

What are the circumstances?

Just these!

To furnish good service we must have the right equipment and an efficient operating force. Both cost much more than they used to. The money we get from telephone rates

And what are these rates?

Just what they were before the war!

They are not sufficient to operate and maintain the plant effectively and provide for depreciation and replacement.

They afford no margin for strengthening of the operating force. Our young women at the switchboards are intelligent and hardworking. We, at least, know that they're doing their very best.

To permit continued recognition of the good job they're doing, we must have adequate rates.

The service-user cannot ignore the obligations of the rate-payer!

The Bell Telephone Company of Pennsylvania

Only A Limited Number of Ford Cars

There are mighty good reasons why you should buy your Ford car now. But the biggest one is that there are only so many Ford cars—just a specific limited number—allotted to this territory. Those who buy their cars now will be wise. They will have them to use whenever they wish.

Don't put it off—next spring, even next month, is an uncertainty. We cannot take orders for spring delivery. Even now, we must have signed bona-fide orders before our monthly allotment is shipped us. So the only way for you to be sure of getting a Ford car, is to order it now. Get your name on an order. It is your protection.

Again we tell you, the allotment for this territory is limited and you must buy now while deliveries are possible. As ever, the demand for Ford cars is away in advance of production. So, it's first come, first served. Spring, summer, autumn and winter are all the same to the Ford car. It is a valuable servant every day of the year. Rain or shine, it is ready for your demands. Buy now and get prompt delivery. You won't have to store it. You can use it. Buy now while the buying is possible.
